

# More than just the facts!

*Looking for an author to visit  
your school or library?*

A good nonfiction story should be more than just a bunch of facts. National-award winning author Conrad J. Storar says that nonfiction should be fun! That's exactly what he tries to do with each new book that he writes. Storar has been writing and editing books and stories about science and nature for more than 35 years. He is available to visit your school or group. His presentations and writing workshops include animated readings, puppets, colorful visuals, and plenty of time for student questions.

*To schedule a visit, contact Storar at:*
